

Supply Chain Warehouse Operative Level 2 **End Point Assessment Process**

The learner will be assessed to the apprenticeship standard using two complementary assessment methods. The assessment is synoptic, i.e. takes a view of the overall performance of the learner in their job.

The assessment activities will be completed as follows:

On-demand test

- 1 hour on-demand
- Scenario based short answer questions
- Covers the knowledge and behaviours elements of the Supply Chain Warehouse Operative standard
- Externally set and marked by the assessment organisation

Practical assessment

- 1 hour practical observation of the learner working in the working environment
- Question and answer session will take place at the end of the practical observation
- Covers the skills areas of the standard

Completion

Independent End Point Assessor confirms that each assessment element has been completed. The overall grade is determined by the Independent End Point Assessor based on the combination of performance in all assessment activities.
